# Gel Colour Nails

Our Gel Colour provides a long lasting manicure using a high power gel polish which is cured using a UV lamp. Using Shellac, OPI or The Gel Bottle applied to the natural nail creates an instant high gloss mirror like finish. Zero drying time and strong enough to ensure no chipping or smudging. Ideal for anyone wishing to keep their natural nail, the gel also ensures that your natural nail is strengthened. We have a huge number of colours available to ensure you get the best from your nails.

# Laser Hair Removal

Our state of the art medical grade laser machine Cryolaser provides the gold standard in Laser Hair Removal. Our treatment provides 100% safe and effective hair removal to all areas of the body. Carried out by our fully trained and insured therapists, you can enjoy a virtually pain free hair removal treatment.

## **How does Cryolaser work?**

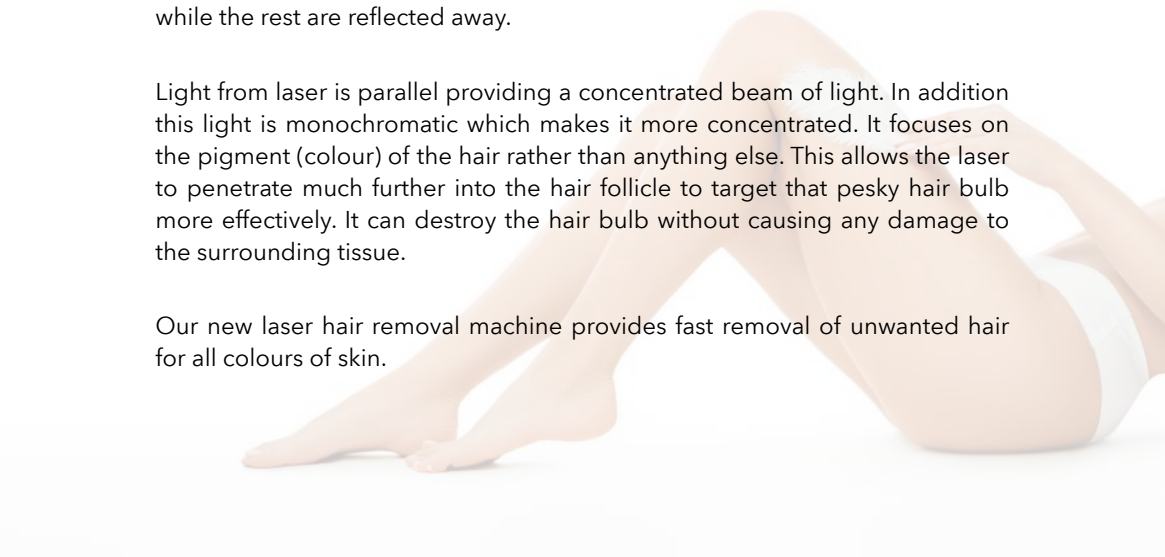

The CryoLaser penetrates deep into the dermis and is absorbed by melanin in the hairs follicles. The laser energy is converted into thermal energy, which damages the hair follicle without damaging the surrounding tissue for effective hair removal. Three different wavelengths will work simultaneously for powerful hair removal treatments. The Cryo-system incorporates a Cryo-head which ensures comfort by reducing the temperature of the head to -6c. Most salons offer what is known as IPL (Intense Pulsed Light) as laser hair removal. This is misleading as the beam of light produced by IPL is wide-spectrum and does not involve lasers. Because only some of the energy generated during IPL affects the hairs it's a less efficient method of hair removal than laser treatment.

## **Why is laser more effective than IPL?**

IPL doesn't target any specific aspect of the hair. The hair absorbs some wavelengths of the light, resulting in heating and disruption of the follicle, while the rest are reflected away.

Light from laser is parallel providing a concentrated beam of light. In addition this light is monochromatic which makes it more concentrated. It focuses on the pigment (colour) of the hair rather than anything else. This allows the laser to penetrate much further into the hair follicle to target that pesky hair bulb more effectively. It can destroy the hair bulb without causing any damage to the surrounding tissue.

Our new laser hair removal machine provides fast removal of unwanted hair for all colours of skin.

# Dermaplane Resurfacing Treatment

A very effective, non-invasive exfoliating facial making the face feel smooth and very clean.

## What Is Dermaplaning?

Dermaplaning is a very effective, non-invasive exfoliating facial making the face feel smooth and very clean. A round edged scalpel, specially manufactured for dermaplaning, is angled skilfully to glide over the skin to remove both dead skin build-up and fine facial hair. This process ultimately exfoliates, brightens and smooths the skin.

Dermaplaning removes the build-up of dead skin making the skin bright and fine lines less defined. With the removal of hair, there is nowhere for acne-causing bacteria to lay on the skin, so skin has fewer outbreaks. The removal of both dead skin and hair reveals brighter, smoother and very clean skin. Your face will feel amazingly soft and smooth after this facial.

## What are the benefits of Dermaplaning?

- No down time.
- Better product absorption from 20% to 60%.
- Removes the facial hair that constantly traps dirt and oils. Reducing breakouts.
- Your skin will feel smooth and have a beautiful glow about it.
- A gentle, non-invasive treatment that removes dead skin cells and "peachfuzz" facial hair.
- Removes dead skin hiding in wrinkles and fine lines instantly brightening the skin.

With no dead skin or facial hair to inhibit the penetration of products, you have skin that will absorb products better and allow makeup to glide on smoothly making your makeup flawless and skin brighter. Ideal for all skin types, including both oily and dry skin.

# Coolifting Facial

Non surgical anti-aging facial treatment

Join the revolution and experience the CoolLifting gun that performs a radical facial treatment using powerful co2 flow, at very low temperatures and very high pressure, combined with high volume of anti-ageing and lifting ingredients induces collagen and elastic formation which increases the skins tissue to become oxygenated.

## **What is Coolifting?**

It is a revolutionary registered system that performs a radical facial treatment using a safe, fast and efficient method. It is the most spectacular and fastest treatment ever seen to challenge the effects of ageing on the face.

## **Number of sessions required?**

Coolifting in a single 3 minute session will improve the appearance and texture of the skin. The interval between future sessions will be personally advised by your specialist.

## **Coolifting offers the ideal treatment for:**

### **Short term benefits**

- Fine lines and wrinkles
- Improves skin texture
- Increases radiance
- Plumps Skin

### **Long term benefits**

- Improves collagen / elasticity
- Improves skin tone
- Plumps the skin
- Reduced fine lines & wrinkles

### **How it works**

The Coolifting gun pushes into the facial tissues a powerful CO2 flow, at a very low temperature with a very high pressure, combined with a high concentration of atomized active ingredients.

### **What you'll feel during and after the session**

- The procedure is painless.
- The application of the active ingredients, pressure and temperature are technically controlled and the process does not cause any discomfort.
- No special care is required after the session.

### **Visible effects in just one session**

Visibly improves the skin texture, quality and stimulates regeneration.

### **How many treatments do I need?**

Recommended a minimum of 6 treatments over a month, followed by monthly maintenance treatments.

One off Red Carpet/Special Occasion Treatment - 12-24 hours in advance.

### **How often can I have this treatment done?**

You can have a treatment using the Coolifting every 3-4 days.

### **Is the Coolift Gun suitable for all skin types?**

Yes the Coolift Gun is suitable for all skin types.

### **How long do results last?**

Following 1 treatment the effects will last 3-4 days.

Following a course of 6 treatments a monthly maintenance will be needed to maintain the effects of the Coolifting treatments.

### **What should I do after a Coolifting treatment?**

We recommend that you allow the serum to fully absorb into the skin, it is best not to apply make-up following a Coolifting treatment. You can apply makeup normally an hour after treatment.

# Microblading

Whether your brows are sparse, over plucked or simply in need of definition, microblading can transform your look. Our fully licensed salon ensures a 100% safe and effective treatment.

## **What Is Microblading?**

Microblading is a form of permanent makeup but, rather than using a traditional tattoo machine, we use a manual hand tool to create individual hair strokes, the results are extremely natural and almost undetectable from your own hairs.

Whether your brows are sparse, over plucked or simply in need of definition, microblading can transform your look.

We use a handheld tool to create the look of individual hair strokes which are extremely natural and mimic your own eyebrow hair. This is the perfect option for anyone who wants to define and shape their brows without having to apply pencils, powders and pomades every day. Whether you suffer from sparse, over-plucked eyebrows, alopecia or simply need definition, microblading can transform your appearance.

## **Does Microblading hurt?**

We would describe microblading as a little 'scratchy' rather than painful. We use a topical anaesthetic to keep you really comfortable, most people don't feel much at all once the anaesthetic is applied.

## **How will I look directly afterwards?**

Most of our clients will look perfectly normal after the treatment, if you are prone to rosacea or have very sensitive skin, you may look a little red around the area for a couple of hours afterwards but this will fade quickly. Most people resume normal activities directly after the session.

## **How long does it take for Microblading to heal?**

Your brows will go through a number of changes as you heal, they will appear a little darker around day 4/5 and then fade during the second week, this is due to the pigment being 'hidden' by the healing skin and is nothing to worry about. During the 3rd week, the colour will bloom back and by week 4 you will have your healed result. You should expect some light shedding but nothing more and you will lose around 30% of the pigment after your first treatment.

## **What will the results be like?**

The results are extremely natural and will last around 6-12 months before a maintenance session is needed.

## **Will I have to take any precautions after the procedure?**

The good thing about microblading is that it's not a pain-intensive technique. It requires little to no special care, microblading is an excellent solution for getting the perfect eyebrows.

## **Why have a brow treatment?**

Brows really can make a huge difference to how we look, almost above all other facial features, if you suffer from Alopecia or hair loss following chemotherapy then the lack of brows can be crippling for your confidence especially if you are constantly worrying about brow pencil in the heat, rain or during sports. Fortunately, there is a better option with Permanent Makeup, this allows us to have our brows ready and weather-proof 24 hours a day without the need for makeup or any tinkering with pencils, powders or pomades!

# Cryotherapy

Our Cryotherapy Treatment is an advanced cryotherapy innovation that is a fast, effective, safe and new solution for removal of skin imperfections.

## What is Cryotherapy?

An ultra cold jet of high-pressure nitrous oxide is applied directly to skin lesions making removal quick and effective. This destroys the tissue by freezing the inter-cellular fluid, forming ice shards and crystals which rupture the membrane, thereby destroying the cell. That means there will be no collateral damage to healthy tissue. Procedure typically lasts up to 30 seconds.

## What does Cryotherapy Treat?

- Skin Tags
- Warts
- Verrucae
- Pigmentation
- Milia
- Cherry Angioma

## Benefits of Cryotherapy Technology

- Safe and proven treatment
- Treats lesions from 1mm to 10mm in size
- Fast treatments (treats a 2mm lesion in 10 seconds)
- Safe for use on face and close to eyes
- Minimal discomfort Pinpoint accuracy (treats just the lesion and not healthy surrounding tissue)

## SKIN LESION REMOVAL

# THE FACE WORKOUT

## **What is it?**

Our NEW Face Workout is a non-invasive, natural, and effective way to improve the appearance of your skin and facial muscles. A high intensity workout to get you face fit. Combining our muscle manipulation techniques (think face knuckling and whipping strokes). Using facial tools and EMS technology for a powerful face sculpting session that will lift, firm and sculpt the skin.

Using our micro current device this delivers low-level electrical currents to the skin. These currents are similar in nature to the natural electrical currents that our bodies produce and stimulate the muscles and tissues of the face, resulting in a firmer, more toned appearance. The device works by sending gentle electrical impulses through the skin and into the muscles, causing them to contract and relax. This helps to improve circulation, boost collagen and elastin production, and increase lymphatic drainage, all of which can lead to improved skin health and appearance.

## **What are the benefits?**

- Stimulates Collagen Production
- Improved Skin Firmness and Elasticity
- Improves Circulation
- Aids Lymphatic Drainage
- Enhances Definition of Facial Contours
- Reduction in the appearance of puffiness and dark circles
- Improved overall skin health and radiance

# THE EYE WORKOUT

## **What is it?**

Are tired, puffy eyes and dark circles taking a toll on your confidence? We have the solution you've been searching for! Experience the transformation with our signature 'Eye Workout' treatment - a revolutionary way to lift, firm, and brighten your eyes.

## **The Power of 'The Eye Workout'**

**Lift:** Our skilled experts have perfected the art of eye muscle manipulation using advanced microcurrent eye rollers. Say goodbye to saggy, droopy eyelids as we help you achieve a natural, youthful lift that will leave you feeling refreshed and rejuvenated.

**Firm:** Bid farewell to fine lines and wrinkles that may be making you appear older than you feel. With 'The Eye Workout,' we apply targeted techniques to help restore the firmness and elasticity of your delicate eye area, giving you a revitalised, radiant look.

**Brighten:** Dark circles and under-eye puffiness are no match for our AlumierMD eye pads. We harness the power of science and innovation to help brighten your eyes and reduce the appearance of tired, stressed skin. You'll leave our salon with a renewed, radiant, and youthful glow that will turn heads everywhere you go!

## **What To Expect**

During your 'Eye Workout' session, you'll be pampered and relaxed in our comfortable environment. We will use microcurrent eye rollers to push serums deeper into the skin and tailoring the treatment to your unique needs, ensuring the most personalised and effective results. We then use AlumierMD eye pads to finish the look. The procedure is safe, non-invasive, and offers an immediate transformation.

# The Five Senses Facial Experience

This unique facial experience will engage the five natural senses in a way to make you feel more pampered than ever before and help you slip into deep relaxation.

## **What Is The Five Senses Facial?**

We've all experienced it...a smell that takes us back to our childhood or the sight of a colour or object that instantly makes us feel relaxed. A variety of factors can trigger emotions and thoughts in us, but for this to occur one of our five senses has to be engaged.

This can be an aroma that takes us away to a tranquil place, a colour that soothes or energises us, a taste that reminds us of something special, a sound that takes us to our favourite vacation spot, or a touch that helps us slip into deep relaxation.

By engaging the five senses we can transport clients to another place and create unforgettable experiences.

# SIGHT

**SIGHT:** Immerse yourself in the cosmic beauty of radiant skin. During your treatment the ceiling will be lit using our starlight projector, creating a visually stunning show of stars and colours reminiscent of a starlit night.

# SOUND

**SOUND:** Let the soothing melodies transport you to a state of serenity as you embark on a sensory journey. Our Five Senses Experience is designed to be accompanied by calming tunes and harmonious sounds. Picture the celestial ambiance we pamper your skin, creating a symphony of tranquility that echoes the beauty of the cosmos.

**SMELL:** Awaken your senses with the earthy fragrance of sage. Our signature scent, infused with the calming essence of sage, will transport you to a fragrant oasis. Breathe in deeply as the aromatic notes envelop you, creating a sensorial experience that soothes the mind and invigorates the spirit.

**TASTE:** Indulge in a moment of self-care with our delectable well-being chocolate treats. Savour the rich, luxurious flavours designed to complement the rejuvenating effects of our Five Senses Facial. Not only will your skin thank you, but your taste buds will also rejoice in this decadent treat for the ultimate sensorial delight.

**TOUCH:** Experience the ultimate in skincare luxury with the calming touch of our skilled therapists. The velvety textures and soothing formulas will leave your skin feeling pampered and nourished. Unwind as the relaxing facial massage promotes a sense of tranquillity, turning your skincare routine into a therapeutic escape.

# Dermalux LED Phototherapy

Dermalux Flex MD is an award winning, medically certified LED Phototherapy treatment delivering clinically proven light wavelengths to transform the skin without pain or downtime.

## DISCOVER YOUR BEST SKIN

Dermalux Flex MD is an award winning, medically certified LED Phototherapy treatment delivering clinically proven light wavelengths to transform the skin without pain or downtime. From the first treatment, Flex MD energises skin cells to restore vitality and calm irritation. A treatment course is recommended for powerful visible and lasting results.

### How does it work?

When clinically proven light wavelengths are applied to the skin, they have a significant impact on how we look, feel and perform. Phototherapy like photosynthesis converts light energy in the same way our bodies use nutrients from food. This in turn supercharges cell function and accelerates our rejuvenation and repair processes.

### What are the benefits?

Dermalux delivers clinically proven Blue, Red and Near Infrared wavelengths to boost collagen production, destroy acne causing bacteria, reduce inflammation, accelerate healing and relieve pain. As the light triggers a whole cascade of cell activating processes, the benefits continue even after the treatment has finished.

## Professional Skin Peels

R e a l R e s u l t s

Are you looking for a brighter, clearer more youthful complexion? Do you want to feel even more confident and powerful in your own skin? Chemical peels might just be your new best friend.

### **What is a Chemical Peel?**

In short, it's a professional exfoliation treatment. A chemical peel will effectively exfoliate dull, tired and pore- congesting dead cells by dissolving the bonds that attach them to the face and body for a smoother, more radiant and revitalised appearance.

### **Your Skin is Entirely Unique to You!**

AlumierMD medical-grade chemical peels are the next generation of clinical -strength, chemical exfoliation. With a varied portfolio of chemical peels, each with a unique blend of specialised ingredients, AlumierMD offers a range of hyper -customised protocols to suit your unique skin and help you reach your skin goals.

AlumierMD Peel Treatments are the next generation of clinical exfoliation. With a variety of peels, each with a unique complex of ingredients, your AlumierMD professional can customise your program of treatments to target your specific skin concerns whether it be ageing, pigmentation or acne. This unique experience includes an exfoliating peel treatment, brightening enhancement followed by prescriptive target serums to reveal a more radiant, soft and luminous skin.

Here at Kelly's Beauty Box we offer a range of professional clinic Alumier facials and skin peels that can be used alongside AlumierMD home skincare products for optimal skin health. Whether you are looking to increase radiance, reduce the signs of ageing or are simply looking for a deep cleanse, we are sure to have the perfect Alumier facial or skin peel.
